

HD500 Series HURRICANE RESISTANT

This durable 2-1/2" x 5" , center-set screw spline system is designed for a 1-5/16" and 9/16" glazing, up to a 10'-0' tall span that is certified by the Miami Dade County and Texas Department of Insurance (TDI) Product Evaluations.

Easy to install and help complete those complex projects due to the reduced components that allows flexibility while holding up to category 4 wind zone.

It is also available with a mechanical lock using our Lanced Thermal Break . The Lancer not only enhances its strength but also helps reduce energy transferred through the thermal barrier.

TOUGHNESS APPROVED

ASTM E 330-14

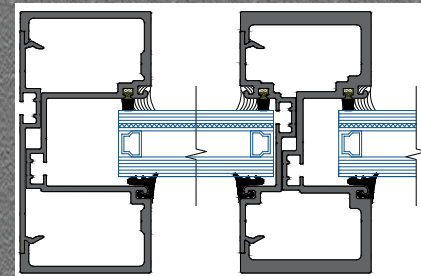

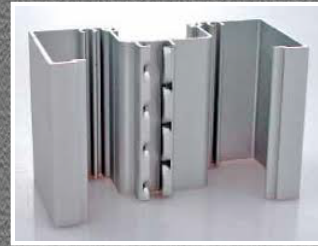

ASTM E 1886-19

ASTM E 1996-17

CATEGORY 4 PROTECTION

LARGE MISSILE IMPACT TESTED - LEVEL D
